- ceroncalsena@gmail.com

PROGRAMMING LANGUAGE/S / SKILLS

DESKTOP (Software)

- WinForms(.Net Frameworm) C# (Skill level : 9/10)
- Data – CRUD   (Skill level : 8/10)
- MySQL Database

WEBSITE-DEVELOPMENT (Software)

- Laravel (PHP)   (Skill level : 6/10)
- HTML   (Skill level : 5/10)
- CSS   (Skill level : 5/10)
- JAVASCRIPT   (Skill level : 5/10)
- NodeJS   (Skill level : 5/10)
- Ajax   (Skill level : 5/10)
- API – Testing   (Skill level : 3/10)
- Laragon / VS code
- Data – CRUD   (Skill level : 8/10)
- MySql – workbench / Laragon DB

API TESTING

- Postman   (Skill level : 3/10)

VIDEO EDITING

- CAPCUT / CANVA
- Youtube channel : @kabibofarming

OTHERS

- Proble solving
- Data gathering / crunching / analysis
- Flexibility
- Adaptability
- Quick learner
- Basic command on Github/Gitlab
- Word, Excel, Powerpoint   (Skill level : 7/10)

PERSONAL INFORMATION

- May 12, 1997
- De La Salle University – Dasmarinas
- BS Computer Science   (2013 – 2018)

PORTFOLIO

https://github.com/ceronGithub/Resume/blob/Resume/portfolio.pdf

PROFILE

I am versatile and detail-oriented professional with 2 years of experience in Full-Stack Development and 1.6 years as a Test Engineer, specializing in building, testing, and optimizing web applications and desktop applications. Proficient in both front-end and back-end technologies, software testing methodologies, and debugging. Additionally skilled in video editing and logo design, combining technical expertise with creativity. Experienced in poultry farming, showcasing strong problem-solving, management, and operational skills. Passionate about technology, innovation, and multidisciplinary learning.

EMPLOYEMENT HISTORY

Test technician Engr., WESTERN DIGITAL(WD)

📅 **October 2020 – April 2022**   📍 **Sta.Laguna Science Park Gate 3**

Western Digital established a manufacturing facility in **Laguna Technopark, Philippines, in 1994**, focusing on producing hard disk drives (HDDs) and related components. The plant became a key part of the company's global supply chain, employing thousands of workers. In **2013, Western Digital closed its Laguna facility** as part of a global consolidation strategy, affecting around 2,500 employees. Despite this, Western Digital continues to operate in the Philippines through sales and distribution channels, providing storage solutions to the local market.

- Hired, and was assigned to slider fabrication.
- Maintenance of machine, perform 5s, check and clean machine every month, quarterly, yearly.
- Create a daily report, about machine status, and minor and major defects.
- Perform data gathering, data crunching, data analysis. Before trouble shooting.
- Run through all machine everyday for daily evaluation of the machine.
- Perform an outside of the book counter measure to fix machine issue. And make the machine go back online ASAP.

Acknowledgement

- I was able to instinctively fix some of a major machine issue, and the solution I implemented became our countermeasure whenever we encountered the same problem.

Special-Task

- Create a software that is similar to the software QA group that are using. This software is able to read data from excel file, and able to flat all data points into a column chart.
- Was able to create a same software, but was never been use on production because of the company policy.

QA (Quality Assurance) Testing, CONDUENT (Contractual, Protempts)

📅 **March – August 2018**   📍 **MOA (SM MALL OF ASIA) PASAY.**

Conduent Inc., a global business process services company, was established in 2017 following its separation from Xerox. In the Philippines, Conduent has become a significant player in the Business Process Outsourcing (BPO) industry, offering services such as customer care, transaction processing, and human resource solutions.

- Hired, and was given a week of proper training, to check our understanding to our job. and to test our capabilities.
- Regularly conduct rigorous testing, analyze requirements, implement QA processes to identify software bugs before endorsing to next process step.
- Conduct process audits, adhere to documentation standards, and focus on risk management by promoting continuous improvement.
- Ensure reliable, secure, and functionally sound software products.
- Extend to collaborating with cross-functional teams, adhering to industry standards, and ultimately contributing to customer satisfaction through the delivery of high-quality software.

I hereby certify that the above information given is true and correct as to the best of my knowledge and belief.
